How to Request a Subdivision Review (Preliminary Plat)

A subdivision application is required when land is to be subdivided into two or more lots.

The first step in the process is to contact the Department of Planning and Development. The Planning Staff will discuss the potential use of the land including development standards. If you chose to pursue a subdivision request, a pre-application meeting should be arranged with the Planning Staff.

- Pre-Application Meeting:** This meeting should be scheduled with the Planning Staff prior to the application submittal.

The purpose of this meeting is to be advised how the City's policies and plans might affect the project and to assign a staff representative to help you coordinate your application. **The applicant is responsible for understanding City Ordinance Chapter 151 “Subdivision Regulations” and requirements, specifically right-of-way dedication, park land dedication, bonding, street lights, yard trees, curb and gutter, etc.**

Based on this meeting, a decision can be made whether to submit a formal Subdivision application. The Planning Staff will also try to advise you of other potential governmental jurisdiction involvement. The following must be brought to the pre-application meeting:

1. The location of the property; and
2. Any preliminary plans developed for the property.

To avoid any potential delay in processing plans or applications, it is advisable to submit the application several days prior to the official deadline. No application will be scheduled for a Planning Commission Public Hearing until all required information is submitted.

APPLICATION INSTRUCTIONS:

- Application Fee:** Check payable to the “City of Brooklyn Park.” The non-refundable application and area identification sign fee for a Preliminary Plat is \$500.00. There is also an escrow deposit in the amount of \$1000.00, which is used to pay for City Staff time spent reviewing the application and legal notification. **Please note that additional escrow and sureties will be required for on-site (and off-site) improvements after approval and prior to release of the Preliminary Plat.**
