

Light Rail Transit Open Houses & Public Hearings

The Met Council will be asking the Brooklyn Park City Council to sign off on the LRT project on February 22 as part of a process called "**municipal consent**," which Minnesota law requires from all communities affected by the proposed LRT project.

Municipal consent includes you!

You are invited to open houses where you can view current design plans and ask questions. You are also invited to public hearings where you can give formal comments that will be entered into the public record. Municipal consent design plans include:

- LRT track alignment within the approved route
- Locations of the station platforms, bridges, and retaining walls
