

Brooklyn Park Sports Dome

COVID-19 Policies

Capacity & Time Usage

- As of now, the current Minnesota Department of Health (MDH) limits indoor recreational spaces to 25% of capacity. Until further notice only 75 participants can be in the dome at one time.
 - Due to the capacity guidelines spectators will not be allowed in the dome until MDH increases to at least 50% of capacity. Spectators will be allowed based on the number of users they have in their group.
 - Users will be responsible for tracking how many participants are in the dome at one time.
 - Users are asked to provide the city with the number of participants they will have in their group during their use(s).
- Players and parents are not allowed to congregate in the dome lobby. Tables and chairs will be removed.
- Parents are responsible to drop off and pick up their players at the required time. Players dropped off early or staying late will have to wait outside both facilities.
- The official clock for dome use time is located on the east wall of the dome on the support building above the office window.
- It is required that entering groups remain outside the facilities until the exiting group is outside and more than six feet away. This will limit the number of people crossing paths during the entering and exiting process.
- Please be cognizant of your time while participating. Your participants should be completely cleared of the field and out of the dome prior to your scheduled end time.
- Be courteous and always maintain six feet or more of social distance unless permitted on the field of play.

Face Coverings

- Masks are always required to be worn in the dome.
 - Reserved rental groups:
 - When participants are actively participating in strenuous activity on the field, they will be allowed to not wear a mask, although it is recommended to wear a face covering as long as it is tolerable.
 - Brooklyn Park requires that coaches and players not participating “on the bench” wear face coverings as we are in an indoor space.
 - Public open dome users:
 - When participants are actively participating in strenuous activity on the field, they will be allowed to not wear a mask, although it is recommended to wear a face covering as long as it is tolerable.
 - Track users:
 - It is required to wear a face covering and maintain good social distance of more than six feet from others.

Self-screening

- All teams, participants, and users are required to self-screen for COVID-19 symptoms before arriving at the dome. Participant temperatures are required to be below 100.4 degrees.
- Signage will be at the dome with the limit of symptoms and a clause for all people to attest to being symptom free. The clause reads as follows: “by entering this facility, you declare that you do not have any of the following symptoms”.

Possible Symptoms of COVID-19. This list does not include all possible symptoms.

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Contact Tracing for Organizations

- Organizations and teams renting space will be required to have an active roster of all participants that have entered the dome readily available if the city reaches out about a confirmed positive test.
- It is required that if someone within an organization or team has a confirmed positive COVID-19 test that they reach out to MDH and make them aware that they have been to the Brooklyn Park Sports Dome even if the confirmed case did not happen at the dome.

Contact Tracing for Public Open Dome and Walking Track Users

- Users of public open dome time and the walking track are required to check-in with staff at the dome to sign in with contact information in case contact tracing is necessary.
- It is required that if someone has a confirmed positive COVID-19 test that they reach out to MDH and make them aware that they have been to the Brooklyn Park Sports Dome even if the confirmed case did not happen at the dome.
